

We believe that drug addiction is a disease that can be addressed through a combination of counseling, education, treatment and participation in a self-help program. Our Center is open five days a week for individual, group and day treatment counseling. Crisis intervention and referrals are also available.

Population Served

The Chemical Dependency Treatment Center provides services to individuals and families throughout Nassau County who are experiencing difficulties caused by chemical dependency. The Center also provides preventive education on substance abuse and vocational education services.

Our Staff

Counselors include licensed social workers, mental health professionals, CASACs, and psychiatrists. All staff members are trained in individual and group counseling to meet the unique needs of our clients.
